ESTEP

Introduction to Skills4EII

- More than a project, it's a movement

- Addresses the Green, Digital & Social transformation

- Aims to future-proof energy-intensive industries

- ESTEP: key partner in this transition

Skills Intelligence

- Systematic job and skills analysis & forecasting

- Sector-specific & cross-sectoral

- Early Warning System

skillMINE TOOL

> "The workforce of today and tomorrow must adapt to digital transformations and changes in production processes, as well as to the new working practices and patterns of work organisation that are being introduced as a result of such developments **- ESSA**"
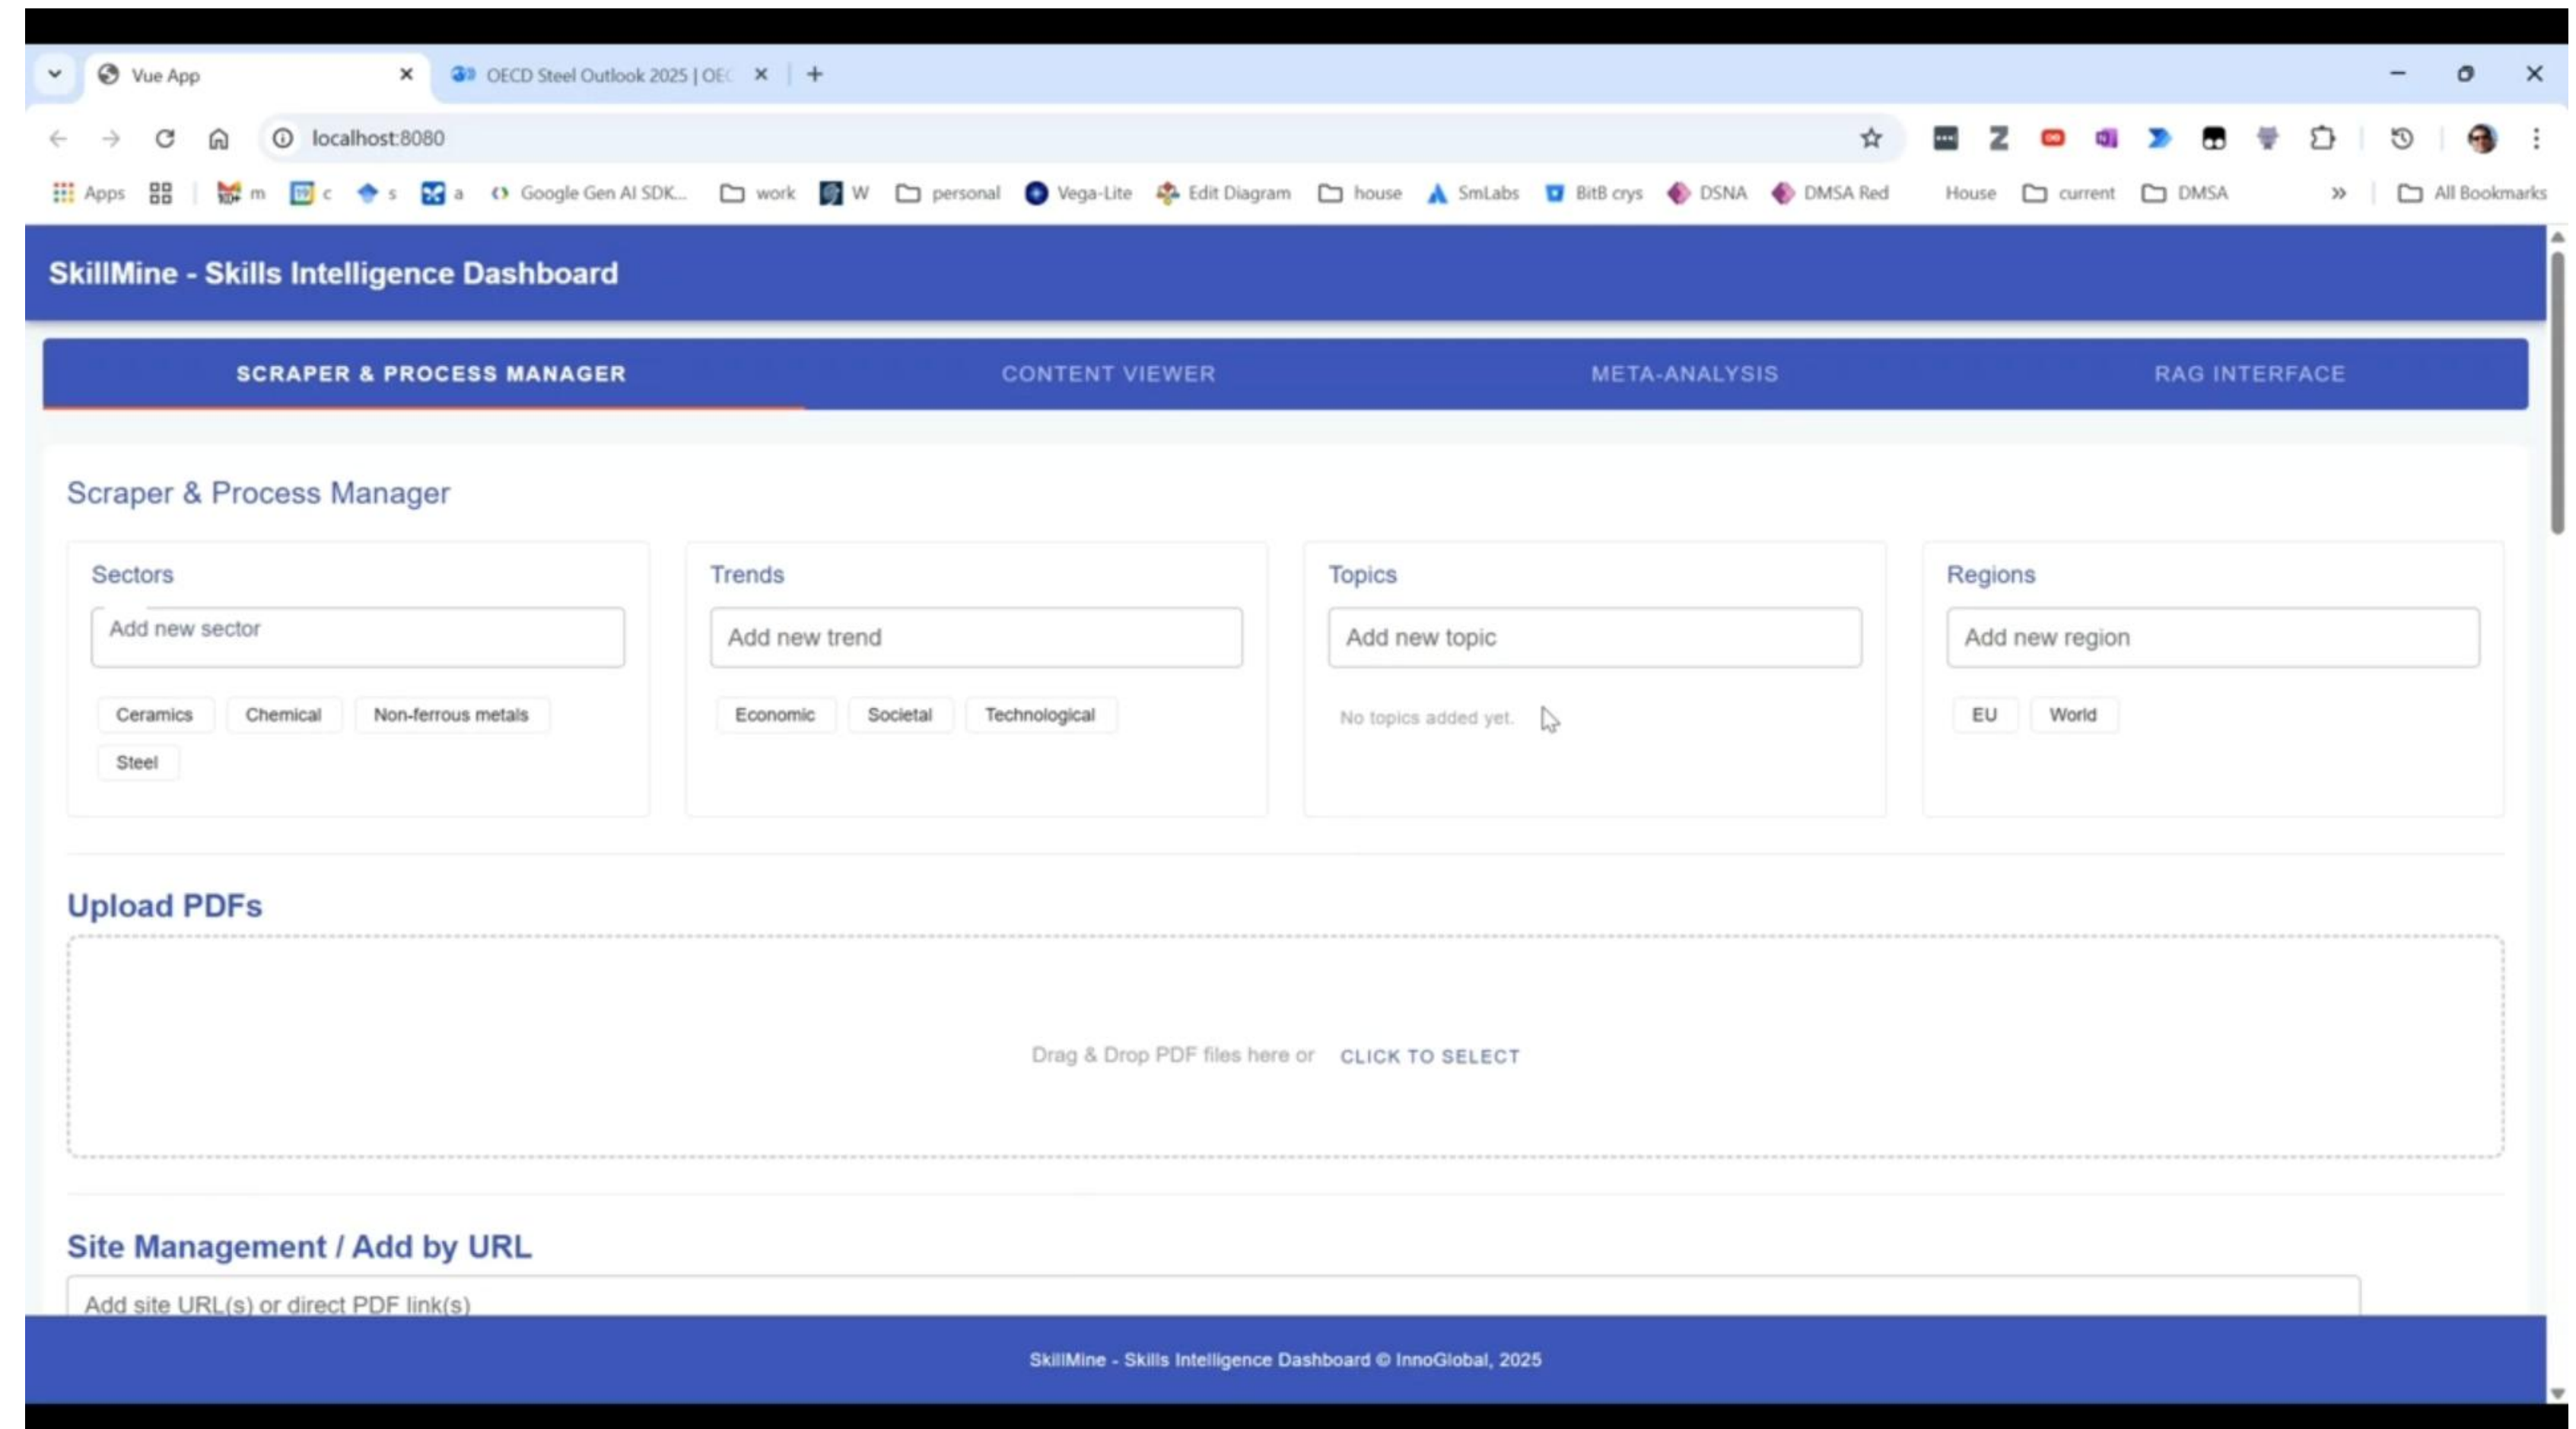

- **Monitors**

    Reports
    Trade associations
    Regulations
    Company news

- **Tracks emerging job & skill trends**

- **Adaptable for future initiatives**

skillMINE in a nutshell

Intelligent Content Ingestion	Automatically gathers information from websites, PDF documents, and URLs
AI-Driven Document Analysis	Quickly extract important data and trends from large documents, including key numbers and overall sentiment.
Interactive Q&A (RAG)	Responds to specific questions in plain language, and it will quickly find relevant answers from its collection of documents.
Meta-Analysis & Synthesis	Pulls together information from different sources, summarises the key points, and shows them on easy-to-read dashboards.

Share with us your most important sites for industry reports, news, events and/or data.
Email kellyn@innoglobal.com with a list of sites that you think are most relevant to the sector.

Value to ESTEP and the Steel Sector

- Builds on what has gone before (notably ESSA, Spire-SAIS)

- Expands the scope to include wider industrial synergies

- Skills4EII has a strong value proposition

  - Reduces duplication across sectors
  - Guides strategic workforce planning
  - Aligns training with real demands
  - Unlocks economies of scale
  - Drives sustainability and digital skills
  - Enhances sector appeal to talent
  - Builds evidence-based collaboration

All underpinned by skillMINE

Support Us

We invite ESTEP stakeholders to join us:

- Share your insights via our initial Skills Survey.

- Follow the Skills4EII LinkedIn page
