### SCOPE

The ESTEP Annual Event 2025 aims at bringing together the European steel community to explore research and innovation in decarbonization, digitization, and circular solutions that will shape the sustainable future of the European steel industry.

Achievements, challenges, and future perspectives will be examined through contributions from diverse European steelmaking stakeholders and presentations of ongoing projects under the Clean Steel Partnership. The event will foster dialogue between the steel sector and other key industries engaged in the European Green Deal—such as for e.g. cement, water, and aluminium—to promote industrial symbiosis and cross-sector collaboration.

The event will take place at the Università degli Studi di Udine – Biblioteca Rizzi. The event also includes a visit of ABS and DANIELI Automation facilities on 28 October 2025.

*Remark: This year's edition will feature both oral presentations and a dedicated poster area. If your abstract is not selected for a presentation, it may still be showcased during the poster session.*

### TOPICS

- Decarbonisation
- Digitalisation, upskilling and social innovation
- Circular economy
- Resource and energy efficiency
- Industrial symbiosis and sector coupling

### ABSTRACT SUBMISSION

Authors wishing to present a contribution (oral or poster) are asked to prepare maximum 500 words or two-page abstract including figures and references.

Please submit the abstract by 10 September 2025 to ESTEP via e-mail: [D.Snaet@estep.eu](mailto:D.Snaet@estep.eu)

### KEY DATES & DEADLINES

Abstract submission: 10 September 2025

Abstract selection: 26 September 2025

Programme publication: 2 October 2025

Registration: 17 September - 22 October 2025

### INFORMATION & CONTACT

For information and registration, contact ESTEP Mrs. Delphine Snaet - [D.Snaet@estep.eu](mailto:D.Snaet@estep.eu)
