

## Wojciech Szulc, Lukaszewicz - Instytut Metalurgii Żelaza

Dr. Wojciech Szulc is the Deputy Director of Finance at Lukaszewicz - Instytut Metalurgii Żelaza of Gliwice, Poland. He graduated in metallurgy from AGH - University of Science and Technology of Kraków in 1980. Then he began to work at the Instytut Metalurgii Żelaza as research worker and simultaneously he started PhD studies at AGH and received his PhD degree in the year 1985. In 1988 he worked as Post Doc at Lehigh University, Bethlehem, PA, USA.

His professional career is composed of two parts: the first covered scientific and technological activities in the field of plastic deformation of metals – and the second, concerned business consulting – e.g. market research, forecasting of steel products consumption, development of business plans.

As a result of his 40 years profession experience he executed almost 150 research projects, is co-authors of 7 patents, author and co-author of about 50 papers and 40 lectures given at conferences.

Since 2008 is a member of the ESTEP Focus Group 5 “People”. He worked in the team developing European project GT VET.
